

How to Get Certified at Scrum.org in 3 easy steps

1) Do all the assessments at scrum.org so you can demonstrate well rounded knowledge:

- [Scrum Open](#)
- [Product Owner Open](#)
- [Developer Open](#)
- [Nexus Open](#) *optional - for scaling scrum but some questions may touch on this so read the [nexus guide](#) for a complete overview*

For PSM II I recommend you do AT LEAST the FIRST 3 Open Assessments

I recommend until you get 100% 3 times. This is just a guideline. You need to feel confident :)

See also the [Official Suggested Reading](#)

2) Until you pass - Read the Scrum Guide and Practice Real Life Situations

Recap this course again till you pass the above open assessments. The scrum guide is also attached to this course and available at: <http://www.scrumguides.org/>.

Every day implement the scrum guide in your real life scenarios. The challenge is to

- a) **remember the scrum rules** in theory
- b) know how to **implement/stick to the scrum rules** in practice

If you can do both these things you are in excellent shape for the exam

3) When you pass the above practice Assessments - Sit the Certification Exam at:

[PSM 2 Certification Assessment](#)

So you can **become** an **official PSM 2 scrum master**

Good luck!

Paul.

Get the free Daily Team To-do list [here](#) to take your team to the next level!

Scrum To-do List

- update list of requirements from daily scrum, emails and other contact
